EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided

by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

Claims 11-22 and 29-41 are cancelled.

Allowable Subject Matter

Claims 1-10, 23-28, and 42-64 (renumbered 1-39) are allowed.

The following is an examiner's statement of reasons for allowance: claims 1-10, 23-28, and 42-64 (renumbered 1-39) are allowed because a comprehensive search of prior art failed to teach, either alone or in combination, dynamically varying traffic channel sectorization within a spread spectrum communication system comprising receiving a first PN-modulated signal from a first sector, receiving a second PN-modulated signal from a second sector adjacent to said first sector, introducing a delay between said a pair of PN-modulated signals comprising the first PN-modulated signal and the second PN-modulated signal projected to adjacent coverage areas, whereby said pair of PN-modulated signals are decorrelated, and summing a delayed second PN-modulated signal and the first PN-modulated signal, as the applicant has claimed.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
